

## PROFILE BELTING

### Technical Data Sheet

#### Food Declaration:

FDA 21 CFR 177.2600(c)(4)(1)

- Rubber articles intended for repeated food contact.

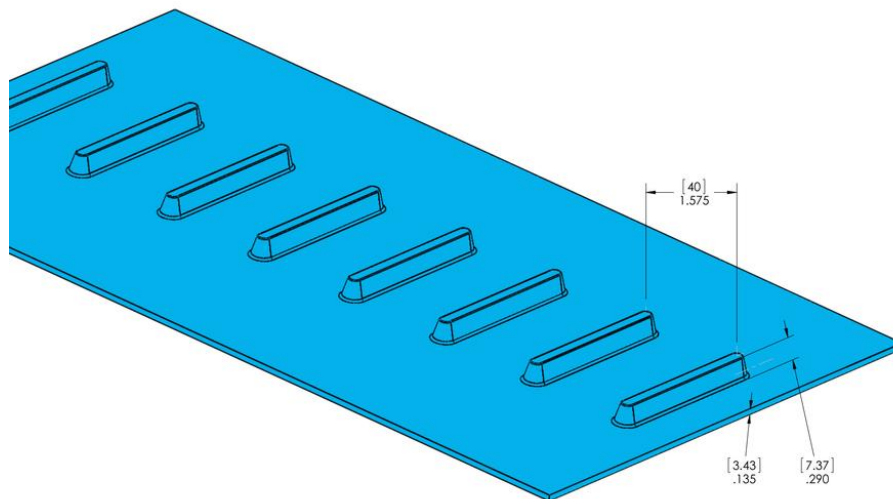

EU Commission Regulation 10/2011

- Plastic Materials and Articles intended to come into contact with food.

Chinese National Safety Standard GB 4806.6-2016.

#### CD 40 Center Drive Profile

75 MM wide Drive Tooth (original toothed food belt design) with self-centering properties. Single or double lug, dependent on belt width.

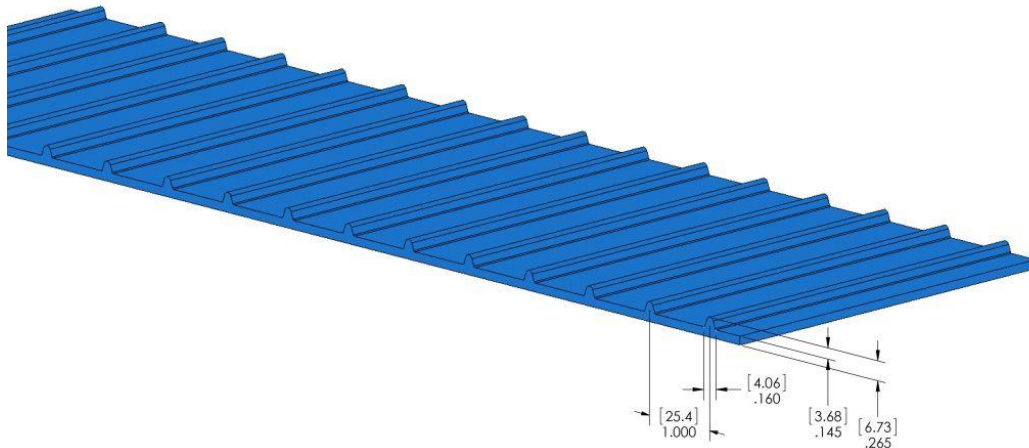

## FD 25 – FD 50

A drop-in replacement for most plastic modular belting.

Efficiently distributes torque across entire belt width.

Small minimum pulley diameter (50mm) for the 25mm pitch belt.
